

# ADDITIONAL EQUIPMENT GLASS ENCLOSURE

## FEATURES

- Poles – brushed stainless steel tube; 60.3 mm diameter
- Configuration of poles – end, middle, corner
- Panel – tempered safety glass
- Width – any, divided onto segments up to 1200 mm width

## STYLISH FENCING IS AN INDISPENSABLE ADDITION TO THE ENTRANCE GROUP OF TURNSTILES

The stylish balustrade glass enclosure is an integral accessory to any of our turnstiles. Its design of these access barriers are very simple but very efficient and easy to install. Any combination of side and middle posts can be used with different widths of glass.
